## **IN THE CLAIMS**:

Please amend claim 1 as follows.

- 1. (Currently Amended) An LNG carrier for transporting LNG from one location to another, comprising:
- (a) a vaporizer on board an LNG carrier for vaporizing the LNG to a gaseous state;
  - (b) at least one heat exchanger at least partially submerged in water;
- (c) an intermediate fluid circulating between said vaporizer and said heat exchanger; and
  - (d) at <u>lease least</u> one pump for circulating said intermediate fluid.
- 2. (Original) The carrier of claim 1, wherein the submerged heat exchanger is attached to an exterior surface of the LNG carrier.
- 3. (Original) The carrier of claim 1, wherein the heat exchanger is integral with the LNG carrier hull.

Claims 4-7. (Withdrawn).
